What's New in the Shark 039;s MediaInfo Tool?

Shark007 is a passionate developer who has released several tools. A week before he released this application, he wrote an article about his own experience with using the media information viewer to edit metadata and learn more about the application, he wrote this article. He released the first media information viewer in 2003. There were so many changes and features in this software and Shark007 made it even

easier to use the application. The title of this article is a bit misleading, but it doesn't mean that Shark007 is going to give you a tutorial on how to edit metadata. This article is intended to offer more information about this new version of the media information viewer and to let people who want to learn more about this program know there are other sources of information. This particular application is free to download and use. It is available in a portable version for those who want to download and install the application at the same time. Shark007 has added many more features to his newest version of the software, but there are other features that he did not mention in this article.

- Easy to use
- Supports most types of files
- Easy to add and edit tag information
- Locates all media files with metadata quickly
